

AFFORDABLE VERSATILITY.

The Talon is the most versatile road frame on the planet. The dual-position aero seat post turns this sleek road-racer into a time-trial machine.

Roadies love it for its aero frame – an unfair advantage for solo breaks and bridging up. Triathletes and time-trialists love it for its rigidity – which translates into pedaling efficiency and direct power transfer. Whether it's performance or aerodynamics you seek, the Talon can produce.
